

We want your story!

Did you come to Sweden as a refugee? We would love to hear your personal story and your memories.

People's memories and stories play an important role in helping us to understand the times that we live in. Since autumn 2015 Malmö Museer, the Regional Museum in Kristianstad, Kulturen and the Department of Arts and Cultural Studies at Lund University have been documenting different aspects of the life of refugees and integration. We are now gathering memories and stories from people who have come to Sweden as refugees for different reasons and at different times. We would really like you to share your personal stories and your memories with us. Your real-life story will become part of the material kept in the museums' archives. The information you share with us might be used in research, in exhibitions or other types of presentations.

You can write as much or as little as you like. It could be about your life before and after you fled your home country, about your arrival in Sweden or about your life in Sweden now. It could be about the people you met or your memories and experiences, good as well as bad. You decide what you want to tell us. Don't worry about spelling, grammar or other language issues, they are not important to us. You can write your story in the language of your choice. And, of course, you can remain anonymous if you so wish. We will be happy to receive anything you have to share with us! All stories are welcome.

If you would rather talk to us, that is also fine. Contact Charlotte or Karin and we will arrange a time to meet.

Do you have pictures, photos or other documents that you feel are an important part of your story? Do you want to talk about them? We are happy to copy or photograph materials if you need them back.
